

Chuback Medical Spa

Menu of Services

At Chuback Medical Group, we take our skin care seriously with the best, clinically proven techniques and formulas. Our focus is always quality of care by highly trained, licensed professionals who bring science to skin care for visible, beautiful results.

FACIALS

Facials are a 50 minute treatment with your choice of aromatherapy oil. Facials include extractions and a relaxing massage of the face, neck, décolleté, arms, hands and feet.

Basic Deep Pore Cleansing Facial -\$125

This deep cleansing treatment uses our *micro-exfoliating scrub cleanser* and a *micro polish exfoliant* to target congestion and roughness in the skin and thereby promote healthy cell renewal. This is the ultimate deep pore cleansing treatment leaving your skin refreshed, smooth, and bright.

Customize your facial with Add Ons for an additional \$20...

- **Add On Anti-Acne Treatment**
Using a clarifying cleanser and conditioning toner, this facial will gently calm your acne. A clarifying clay masque helps to decongest clogged pores and lift impurities from the skin's surface. This non-drying masque is formulated with natural Earth clays, Kaolin & Bentonite and Alpha Hydroxyl Acids to resurface and purify, leaving your skin cool, calm and really, really clean.
- **Add on Sensitive Skin Treatment**
Our retexturing activator will resurface and hydrate your skin, creating a noticeably smoother and softer look and feel. A calming redness neutralizer will help to cool the skin's temperature and strengthen its protective barrier. Perfect for rosacea, broken capillaries, and delicate red complexions.
- **Add on Anti-Aging Treatment**
Ideal for mature skin types in need of real hydration and brightness! Nutrient-rich Brazilian Sea Algae will nourish and hydrate the skin while oils of grape seed, rose hip and macadamia nut restore, resurface, and maintain moisture. Get ready to glow!

FRUIT ACID PEELS \$80

Fruit Acid Peels are 30 minute treatments and include a deep facial cleansing and customized mask, followed by a hydrating moisturizer. Fruit Acid Peels will remove and exfoliate outer layers of aged and sun damaged skin to improve skin texture and tone and promote absorption and effectiveness of topical treatments. Depending on your skin type and areas of concern we offer Glycolic, Salicylic and Lactic acid to optimize your treatment results.

MICROPEEL \$210

Micropeel is a 60 minute procedure. This two-step process optimizes your results by combining the benefits of both a Clinical Exfoliation and Fruit Acid Peel. This treatment resurfaces the skin by removing the outer epidermis and stimulating collagen production. You will notice marked improvement in hyperpigmentation, fine lines, wrinkles, and texture. Includes a pre-cleansing and a post-calming, customized mask.

Choose your Clinical Exfoliation...

- Our specialized *Power Peel Microdermabrasion* allows for a physical exfoliation that enhances skin quality and encourages cellular turnover and promotes circulation. Paired with fruit acid peel, skin tone will be fabulously renewed and oh, so soft.
- *Dermaplaning* is a manual exfoliation technique that safely and efficiently removes surface epidermal debris, vellus hair, and effectively primes skin for the chemical peel solution. It is an excellent alternative for clients who have particularly sensitive skin and are unable to receive a microdermabrasion treatment. Achieves the ultimate in smooth complexions!

WAXING

Safe for all skin types (including sensitive!) for effective, temporary hair removal.
